

Claim Amendments

1. (currently amended) A pantiliner comprising:
- (a) a silhouette comprising
- (i) a first portion having a maximum width,
- (ii) a second portion having a maximum width, wherein the second portion being in opposite relation to the first portion and the maximum width of the first portion is greater than the maximum width of the second portion, and
- (iii) a first longitudinally extending edge and second longitudinally extending edge being in opposed relationship between the first portion and the second portion;
- (b) a layered portion comprising
- 1) a cover,
- (2i) an absorbent core; and
- (3ii) a backsheet; and
- (c) at least one wing laterally extending from the first longitudinally extending edge or the second longitudinally extending edge, wherein the wing is releasably attached to the longitudinally extending edge; and
- (d) ~~a perforation between the wing and the longitudinally extending edge for removing the wing.~~
2. (currently amended) A ~~An~~ pantiliner of claim 1-13, wherein the perforation is formed by a member selected from group consisting of knife cutting, ultrasonic cutting, embossing, and sealing.
3. (currently amended) A ~~An~~ pantiliner of claim 1, wherein the absorbent core comprises absorbent material selected from the group consisting of pulp fibers, bicomponent fibers, polyester fibers, and superabsorbent polymers.
4. (currently amended) A ~~An~~ pantiliner of claim 1 further comprising a transfer layer.
5. (currently amended) An attachment wing for securing a thong pantiliner to a garment, the attachment wing comprising an upper surface, the upper surface comprising a cover and an absorbent article attachment means for securing the attachment wing to the pantiliner, and a lower surface, the lower surface comprising a garment attachment means for securing the attachment wing to the garment, ~~wherein the thong pantiliner comprises~~
- ~~A. a silhouette comprising~~
- ~~(i) a first portion having a maximum width,~~

(ii) ~~a second portion having a maximum width, wherein the second portion being in opposite relation to the first portion and the maximum width of the first portion is greater than the maximum width of the second portion, and~~

(iii) ~~a first longitudinally extending edge and a second longitudinally extending edge being in opposed relationship between the first portion to the second portion and~~

B. ~~a layered portion comprising~~

(i) ~~a cover,~~

(ii) ~~an absorbent core, and~~

(ii) ~~a breathable backsheet.~~

6. (original) An attachment wing of claim 5, wherein the attachment wing is dispensed from a roll.

7. (currently amended) An attachment wing of claim 5-16, wherein the thong pantliner further comprises a transfer layer.

8. (currently amended) An attachment wing of claim 5-16, wherein the absorbent core comprises absorbent material selected from the group consisting of pulp fibers, bicomponent fibers, polyester fibers, and superabsorbent polymers.

9. (currently amended) A kit for an absorbent article, the kit comprising:

A. Aa pantliner comprising:

(i) a silhouette comprising

(a) a first portion having a maximum width,

(b) a second portion having a maximum width, wherein the second portion being in opposite relation to the first portion and the maximum width of the first portion is greater than the maximum width of the second portion, and

(c) a first longitudinally extending edge and a second longitudinally extending edge being in opposed relationship between the first portion to the second portion;

(ii) a layered portion comprising

(a) cover,

(ba) an absorbent core; and

(eb) a breathable backsheet; and

C12
cont.

B. at least one attachment wing ~~comprising a cover and a breathable backsheet.~~

10. (original) A kit of claim 9, wherein the attachment wing is dispensed from a roll.

11. (original) A kit of claim 9, wherein the absorbent core comprises absorbent material selected from the group consisting of pulp fibers, bicomponent fibers, polyester fibers, and superabsorbent polymers.

12. (original) A kit of claim 9 further wherein the absorbent article further comprises a transfer layer.

C13
A. 13. (New) A pantiliner of claim 1 further comprising a perforation between the wing and the longitudinally extending edge for removing the wing.

14. (New) A pantiliner of claim 1 wherein the layered portion further comprises a cover.

15. (New) A pantiliner of claim 1 wherein the backsheet is breathable.

16. (New) An attachment wing of claim 5, wherein the thong pantiliner comprises

A. a silhouette comprising

(i) a first portion having a maximum width,

(ii) a second portion having a maximum width, wherein the second portion being in opposite relation to the first portion and the maximum width of the first portion is greater than the maximum width of the second portion, and

(iii) a first longitudinally extending edge and a second longitudinally extending edge being in opposed relationship between the first portion to the second portion and

B. a layered portion comprising

(i) an absorbent core and

(ii) a backsheet.

17. (New) An attachment wing of claim 16, wherein the thong pantiliner further comprises a cover.

18. (New) An attachment wing of claim 16, wherein the backsheet is breathable.

19. (New) A kit of claim 9, wherein the attachment wing comprises a cover and a backsheet.

20. (New) A kit of claim 19, wherein the backsheet is breathable.

21. (New) A kit of claim 9, wherein the pantiliner further comprises a cover.
